

# ATA CARNET – SECURITY RATE CHART (includes 10% Penalty Rate)

The ATA Carnet provides a guarantee to the Customs of a foreign country into which the goods are temporarily imported that all duties, taxes etc. will be paid to them if the conditions under which they allow these into the country are breached. The Issuing Chamber must receive an equivalent security from the Carnet user. This security must be for an amount equal to the highest rate of duty and taxes applicable to the goods in any country of destination, and transit if applicable (inclusive of a possible 10% penalty, as laid down by the International ATA Convention). It will disregard any preferential tariffs that may be in force at the time because Customs authorities may themselves ignore such preferential rates. The security, to the nearest pound, must be given in one of the following ways:- by cash or a Banker's Draft, bank or insurance company guarantee, (in which case the banks or insurance companies must comply with certain criteria) or through the Carnet Indemnity Scheme. Such a guarantee will only be accepted when given on the Issuing Chamber's official form.

**EC/CPD/CHINA-TAIWAN CARNET**

Agreement has been reached between the EC, Taiwan and the International Chamber of Commerce to establish a system of Carnets similar to that for ATA Carnets. The Carnet covers goods temporarily imported/exported between the EC and Taiwan and is called an EC/CPD/China-Taiwan Carnet. (CPD = Carnet de Passage). Other than a different colour code and A4 format to distinguish it from the ATA Carnet, the conditions of its use, the goods for which it can be used and EC Customs procedures are identical to those for the ATA Carnet.
